

# Custom Order Form

Furniture, storage solutions, housewares

Custom projects are a collaborative process; from a discovery session (if needed) to go over your initial ideas reflected in this form, to the design, building, and finishing the piece. The process, from start to finish, can take between 4 and 12 weeks, on top of the current lead time. I require a 50% deposit to hold your spot in my production schedule, with the remainder due upon delivery/pickup.

**Furniture and Cabinetry:** Because furniture and cabinetry are design intensive, I require a \$150 deposit. Once the design stage is complete, I will provide a quote for the remainder of the project. A 50% deposit of that quote is due up front, with the remainder due the day of delivery or pickup via cash, certified check, venmo, or paypal. All deposits are non-refundable.
