

# Custom Order Form

## 3D Signs

Custom projects are a collaborative process; from a discovery session to go over your initial ideas reflected in this form, to the design, approval, file creation, material sourcing, building, and finishing the piece. The process, from start to finish, can take between 4 and 12 weeks, on top of the current lead time. I require a 50% deposit, with the remainder due upon delivery/pickup. All deposits are non-refundable.
